You are cordially invited to join a presentation to be given by a famous scientist on Saturday, 19th August 2023 at 12:00 at MC Palace Hotel.

Yuri D Martsinshin is a scientist in field of planetary ecology and human health will be making a presentation on saving our planet Earth. Today, more than ever, our planet needs help and restoration at deep levels. Depleted soils and land after fires can no longer give people quality plants, fruits and vegetables. However, every person eats them, and the health of each person directly depends on the quality of fruits and vegetables that grow on our soil.
