Message from the Deputy District Governor 2011-12 Themis Themistocleous

Dear fellow Rotarians,

December is Family Month in the Rotary calendar. And how fitting to celebrate family in the festive season! There is something magical about family and the holidays. This month is an opportunity to celebrate the wonder of our own family which, in addition to individual Rotarians, includes all of those who are involved in Rotary's work from Rotary Foundation program alumni to participants in Rotary youth programs in thousands of communities around the world.

Spouses and children of Rotarians play a vital role in Rotary too. Rotary clubs benefit immensely when they strive to achieve a balanced interaction between Rotarians and their families, enhancing home lives and family interactions.

Celebrate Rotary's commitment to family in December. Consider bringing together the mothers, fathers, children, grandparents, aunts, uncles, cousins, and members of your Rotary family into shared activities.

Participate in a community service project that will help strengthen families in your community. As RI President Kalyan Banerjee says, the family is the starting point for everything we are trying to accomplish and the building block of the community. "If we wish to see a world that is more joyous, we first have to make sure that the families of the world are more joyous, that they have the things they need to be happy, to thrive

and move forward," is his message. I hope the magic of the holidays, the celebration of a New Year, and the blessing we share as being fellow Rotarians, warms your heart as it does mine. From my home to your home, may you and yours have a wonderful holiday season.

Best Rotarian regards,

Themis Themistocleous

[Rotary water symposium in Israel stresses sustainability](#)

By Abby Breitstein

Rotary International News – 5 December 2011

More than 100 Rotarians took part in an international water symposium in Tel Aviv on 16 November, discussing ways that Rotary can help meet the world's water and sanitation needs.

The symposium, sponsored by District 2490, was held in conjunction with WATEC Israel 2011, an annual water technology exhibition and conference that draws thousands of researchers, developers, politicians, and business executives from around the world.

RI President Kalyan Banerjee, addressing both symposium attendees and the larger WATEC audience, emphasized the need for Rotary service projects to be sustainable.

Sustainability "means that there will not be a problem finding parts, fixing something that is broken, finding the money for maintenance, keeping the project going," he said. "It means the community will take ownership of a solution, so that even though it might have come from Rotary originally, it no longer belongs to Rotary."

[Community input](#)

Banerjee used the example of solar ovens to illustrate why successful service projects need to begin with community input. Though solar ovens might look like a perfect solution to the problem of finding cooking fuel -- their energy source is free, inexhaustible, and nonpolluting; they are cheap to make; and they preclude the need to gather wood and cut down trees -- other factors might have to be considered, he said. Perhaps local foods need to be cooked at hotter temperatures than a solar oven provides, or the area is very windy and the ovens could blow away, or the local women traditionally rise before dawn to cook.

"These are all issues that you simply might not have thought of," Banerjee said. "When we are talking about solutions to a problem, we must recognize that solutions cannot be imposed. They have to be developed, they have to be appropriate, they have to be a product of communication and cooperation."

Ron Denham, chair of the Water and Sanitation Rotarian Action Group and a member of the Rotary Club of Toronto Eglinton, Ontario, Canada, said it is especially important to choose appropriate technology for water projects in low-income areas.

"Appropriate technology means that the technology is within the capability and capacity of the people to use. It has to be very simple," he said. "The community also has to be able to afford to operate and maintain the facility."

The day's events brought together a wealth of expertise in water technology in a country that is the world's leader in water conservation.

Conference organizer Avner Fuchs, past governor of District 2490 and a member of the Rotary Club of Gedera, explained that Israel exists in a "permanent state of water shortage. We cannot waste any water, so we look at ways not only to use less water, but to reuse water in every way we can."

Fuchs said Israel recycles 75 percent of its uncontaminated wastewater, adding that the figure will rise to 95 percent by 2020. "Reclaimed water goes into things like cotton, trees, flowers -- anything that people don't end up eating or drinking," he said.

Message from the Foundation Trustee chair

Bill Boyd, Foundation Trustee Chair

Now's the time to learn about what the Foundation does

November is Rotary Foundation Month, and I hope you'll focus on the Foundation with your club speakers and programs. How can our newer Rotarians understand the Foundation if we do not tell them what it is and what it does?

We are often not good communicators in Rotary, which is strange as we are business and community leaders. Maybe it is information overload or too much sport on television, but Rotary information is not a high priority for many Rotarians. For example, how would you answer these questions:

Is there an Ambassadorial Scholar in our district?

What is this Future Vision Plan, and what does it mean for our club?

What do we need to know about polio eradication, other than that it makes us feel good?

What is the difference between Group Study Exchange and vocational training teams?

I hear the words *Every Rotarian, Every Year*. What is that about?

How can The Rotary Foundation support our club's desire to help people outside our community?

What are Rotarians doing on issues such as HIV/AIDS and water and sanitation?

Nobody in my club reads the Foundation annual report. Where does the money go?

What is our relationship with the Bill & Melinda Gates Foundation?

The list of questions could go on, but the real question is, "What is our club doing to learn more about our Rotary Foundation?" If the answer is "not enough," now might be a very good time to start.

Public Relations Plan

Public Relations Plan

Main target:

To get more citizens aware, especially those who leave in Nicosia area, about our club, and our activities. What is Rotary, who are the Rotarians, what does Rotary do. Specifically, we should try to overcome and to clarify a misunderstanding and a misperception that runs across a lot of people in Cyprus that Rotary is a kind of a "sect" (heresy). This is a quite negative approach from a lot of people in Cyprus that affects the expansion, the role and the function of our club and our organization in general, especially in Cyprus a country with citizens that have very strong bonds to their religion. Also, we should seek and aim to expose and to promote most of our major activities, through the media (local and national).

Use of media:

In our days the use of media, especially electronic media, is a very powerful, important and effective tool (and vehicle) in order to promote and to inform the public about our organizations and our club's activities. We are listing below some of our initial suggestions regarding the promotion of our club's activities through the media:

- Prepare and send press (news) releases to all media (electronic and printed) regarding our major activities.
- Arrange the participation of our President and/or other Board members to various local radio programs, in order to speak and to explain the role, the function and the importance of our organization and especially our Nicosia-Lefkothea club.
- Inform the media (especially some "key" media

persons and journalists) but also the public, in general, about our official web-side, so they can visit it and get the appropriate information. They could also have a link to our weekly electronic bulletin in order to follow our meeting activities and other general activities and projects of our club.

Events that could be attractive to the media:

We should organize specific events that are attractive both to the media and to the general public.

Such events could be "tea - afternoons", dinners, special "theme" nights, or special nights (parties) at a local night club (such event could be also attractive to younger people). We can also organize special events like a Christmas Gala dinner, a Carnival dance dinner, a Saint Valentine's Day special dinner, an Easter lunch day, out in the fields, with the traditional lamb "suvla", etc. We can invite one or two notable, expert speakers (according to specific subjects and fields) well known Doctor, or a well known media personality, to give a speech thus, organizing an event open to the general public. For all these events and activities we can always collaborate with other local clubs.

Local government officials:

We could arrange meetings of our Board Members with high positioned local government officials in order to inform them about our activities, our efforts to support and to help the society through our charity activities and events and to make them aware about our existence and our function, especially in the district of Nicosia. Such meetings will be largely covered by the media.

2. Anniversary Publication
