Rotarians celebrate milestones in the fight to rid the world of polio

Rotarians Tuesday celebrated two major milestones in the organization's decades-long fight to rid the world of polio.

During the third plenary session of the 2012 RI Convention in Bangkok, Thailand, which was also made available through a live [webcast](#), Rotarians were congratulated for meeting and exceeding Rotary's US\$200 Million Challenge, Rotary's response to \$355 million in matching grants from the Bill & Melinda Gates Foundation for polio eradication efforts. Attendees also celebrated India's removal from the polio-endemic list in February, which leaves only three countries where transmission of the virus has never been stopped.

But speakers reminded the festive assembly that the work is far from complete, because the ultimate goal has not been reached.

"We know that we haven't reached our goal. We haven't ended polio," said John F. Germ, chair of Rotary's US\$200 Million Challenge Committee. "Our clubs are still planning polio fundraisers for the coming years and encouraging donations from people in their communities."

Germ announced that, as of 4 May, Rotarians and supporters have raised \$215.7 million for the challenge, which runs through June. But with the Global Polio Eradication Initiative facing a significant funding shortfall for 2012 and beyond, it is vital for clubs and districts to keep pushing forward with their many creative fundraisers. From Rotary International

Public health emergency

Bruce Aylward, assistant director-general for polio, emergencies and country collaboration for the World Health Organization, said India's removal from the polio-endemic list is "perhaps the most important milestone ever on the long road to eradication." "It's a magnificent achievement. And it is a Rotary achievement," he said. "Today, Rotary's vision of a polio-free world is much closer to reality."

But an upsurge in cases of paralysis from polio in Nigeria, Pakistan, and Afghanistan and recent polio outbreaks in China, the Congo, and Tajikistan have also prompted what he called an "unprecedented push" to finally end the disease. He said 192 ministers of health will meet next week and declare polio a public health emergency.

"The world understands the full consequences of failure," he said. "We must be faster, we must be more focused and each one of us must be fully accountable."

Indian philanthropist Rajashree Birla, who has given more than \$4.2 million to the Foundation for polio eradication, said she has been "overwhelmed with Rotary's polio efforts." Birla's late husband, Aditya, built the family business into one of India's largest. Today, Birla and her son, Kumar Mangalam, head the Aditya Birla Group, a Fortune 500 company. Birla stressed the need for business accountability and community service. Her Giving to Living campaign encourages corporations to "embed giving into their DNA."

"When a corporation pushes its energies and helps resolve social sector issues through engagement, it indirectly stimulates its own business development," said Birla. "There is much to be gained when business leaders take giving to heart, and set the mandate of making a difference by caring for people in their community."

Service to Humanity award

Former Rotary Foundation Ambassadorial Scholar John Skerritt was presented with the 2011-12 Global Alumni Service to Humanity Award by Rotary Foundation Trustee Chair William B. Boyd.

"Just as Rotary Fellowships help build international understanding, I had the privilege of leading a program of postgraduate training for over 300 agricultural scientists from 18 developing countries to assist in building the next generation of thinkers and leaders," said Skerritt. [Read more.](#)

In his keynote address, Boyd noted the difference The Rotary Foundation makes in lives daily.

"When a group calling themselves Rotarians comes to a village and asks what are the most pressing needs that can be worked through together and the answer is water, you can understand the opportunity that this gives the woman who spends three hours each day walking with her teenage daughter to collect dirty water as that is the only supply available," he said.

"A water supply to her village will give her time to grow food, will enable her daughter to be educated, her other children will not be constantly sick, and maybe she can get a microcredit loan and start a small business. What a difference that day will bring." [Download Boyd's speech](#)

Amanda Martin, an alumna of the Rotary Peace Center at Chulalongkorn University in Bangkok, thanked Rotary for the opportunity to broaden her skills. She said her work as a public health coordinator and teacher in a refugee camp on the border of Thailand and Myanmar is "inspiring and fulfilling."

"Rotary has already made a dramatic difference in my life and is having a profound ripple effect, radiating from me to my students and onto the impoverished populations that they will serve as public health workers," said Martin.

Public Relations Plan

Public Relations Plan

Main target:

To get more citizens aware, especially those who leave in Nicosia area, about our club, and our activities. What is Rotary, who are the Rotarians, what does Rotary do. Specifically, we should try to overcome and to clarify a misunderstanding and a misperception that runs across a lot of people in Cyprus that Rotary is a kind of a "sect" (heresy). This is a quite negative approach from a lot of people in Cyprus that affects the expansion, the role and the function of our club and our organization in general, especially in Cyprus a country with citizens that have very strong bonds to their religion. Also, we should seek and aim to expose and to promote most of our major activities, through the media (local and national).

Use of media:

In our days the use of media, especially electronic media, is a very powerful, important and effective tool (and vehicle) in order to promote and to inform the public about our organizations and our club's activities. We are listing below some of our initial suggestions regarding the promotion of our club's activities through the media:

- Prepare and send press (news) releases to all media (electronic and printed) regarding our major activities.
- Arrange the participation of our President and/or other Board members to various local radio programs, in order to speak and to explain the role, the function and the importance of our organization and especially our Nicosia-Lefkothea club.
- Inform the media (especially some "key" media

persons and journalists) but also the public, in general, about our official web-side, so they can visit it and get the appropriate information. They could also have a link to our weekly electronic bulletin in order to follow our meeting activities and other general activities and projects of our club.

Events that could be attractive to the media:

We should organize specific events that are attractive both to the media and to the general public.

Such events could be "tea - afternoons", dinners, special "theme" nights, or special nights (parties) at a local night club (such event could be also attractive to younger people). We can also organize special events like a Christmas Gala dinner, a Carnival dance dinner, a Saint Valentine's Day special dinner, an Easter lunch day, out in the fields, with the traditional lamb "suvla", etc. We can invite one or two notable, expert speakers (according to specific subjects and fields) well known Doctor, or a well known media personality, to give a speech thus, organizing an event open to the general public. For all these events and activities we can always collaborate with other local clubs.

Local government officials:

We could arrange meetings of our Board Members with high positioned local government officials in order to inform them about our activities, our efforts to support and to help the society through our charity activities and events and to make them aware about our existence and our function, especially in the district of Nicosia. Such meetings will be largely covered by the media.

2. Anniversary Publication
